Enjoy the freedom to visit any participating doctor

Our plans give you the freedom to visit any doctor who participates in our network, without a referral. However, working with a primary care physician (PCP) gives you a chance to visit a doctor who will get to know your personal health care needs. Your doctor can:

- Give you everyday care and treat you for certain illnesses and injuries
- Know your health patterns and risks
- Guide you on important health decisions

It's easy to choose a primary care physician

You can select or change your PCP at any time by calling the Member Services number on your ID card or by logging in at **Aetna.com** and selecting Find Care & Pricing.

Provider search en Español?

Simply click on the "Español" link at the top of the provider search page to switch to a Spanish version.

Building a relationship with a PCP is a good idea. They'll help you make informed decisions about your care.

The right care when you need it

If your life isn't in danger but you need medical care, it's important to know where to go to get the care you need for the lowest cost. But, if you have a life-threatening illness or injury, don't wait — go to the nearest emergency room (ER) or dial 911.

Your doctor (primary care physician)

Aetna® plans give you the freedom to visit any doctor who is part of the Aetna network without a referral. However, working with a primary care physician gives you a chance to visit a doctor who will get to know your personal health care needs, medical history and background.

Always visit your doctor first, if possible.

Walk-in retail clinics

- Offer treatment for problems such as strep throat, ear infections, bronchitis and allergies
- Cost less than urgent care centers and ERs
- Are open extended business hours and evenings

Urgent care centers

- Offer treatment for problems such as fever, sprains, minor cuts and burns
- Cost slightly more than walk-in clinics, but much less than the ER
- Have extended evening, weekend and holiday hours

ERs

- Are for life-threatening emergencies, such as chest pain, trouble breathing or severe bleeding
- Have the highest cost for treatment
- Are open 24/7
- Treat true emergencies first, often resulting in a long wait for non-urgent cases

In-network labs

You have in-network access to a full range of lab services with both Quest Diagnostics and LabCorp. With more locations to help bring care closer to home. You can also get in-network walk-in lab services at One Medical™.

Attain by Aetna® app

Designed in collaboration with Apple®, the Attain by Aetna app combines your health history with your Apple Watch® activity to offer personalized goals,* achievable actions and big rewards — like an Apple Watch or gift cards. Explore more at [AttainByAetna.com](https://www.attainbyaetna.com).

More than fitness

Hitting 10,000 steps doesn't motivate everyone to get healthier.

The Attain® app empowers and rewards you for getting healthier — in ways that work for you:

- Reminders to get a flu shot and schedule an annual physical
- Tips for healthier snacking, better sleep and improving mindfulness
- Inspiration for increasing activity levels

Here's how it works

To enroll, you must:

- Be at least 18 years old
- Be an Aetna medical plan member
- Have an iPhone®

Earn an Apple Watch and gift cards

Don't have an Apple Watch? Order one through Attain by Aetna and earn it over 24 months with points. Get the Apple Watch Series 3 (GPS, 38mm). Or upgrade to Apple Watch SE or Apple Watch Series 6 for an additional up-front cost. All you'll pay initially is a \$7 activation fee + sales tax. Use any extra points to earn more than \$75 in gift cards from popular retailers.**

Or use your Apple Watch and earn gift cards

Already have an Apple Watch? Use it and earn more than \$275 in gift cards.

*Goals and suggested health actions should not replace your doctor's advice. If you have a medical condition that prevents you from meeting your goals, or if your doctor advises you not to take part in physical activity, there may be an opportunity for you to earn the same reward in a different way. Call **1-866-820-3731 (TTY: 711)** to find out your options.

**Alternative rewards are available depending on user enrollment date. Meet your weekly activity goals and complete healthy actions to earn enough points to cover all or part of your monthly Apple Watch payment. Or to score gift cards.

Rewards earned may be considered taxable income. Please consult your tax adviser if you have any questions regarding the taxability of rewards.

Apple Watch Series 3, Apple Watch SE and Apple Watch Series 6 require an iPhone 6s or later with iOS 14 or later.

DISCOUNT OFFERS ARE NOT INSURANCE. They are not benefits under your insurance plan. You get access to discounts off the regular charge on products and services offered by third-party vendors and providers. Aetna makes no payment to the third parties — you are responsible for the full cost. Check any insurance plan benefits you have before using these discount offers, as those benefits may give you lower costs than these discounts.

Discount vendors and providers are not agents of Aetna and are solely responsible for the products and services they provide. Discount offers are not guaranteed and may be ended at any time. Aetna may get a fee when you buy these discounted products and services. Hearing products and services are provided by Hearing Care Solutions and Amplifon Hearing Health Care. Vision care providers are contracted through EyeMed Vision Care. LASIK surgery discounts are offered by the U.S. Laser Network and QualSight. Natural products and services are offered through ChooseHealthy®, a program provided by ChooseHealthy, Inc., which is a subsidiary of American Specialty Health Incorporated (ASH). ChooseHealthy is a registered trademark of ASH and is used with permission.

How your medical plan works

The Government of the District of Columbia offers these three plans:

1 Aetna HMO Plan Aetna Health Network OnlySM

Visit any in-network doctor

You can visit any in-network doctor, provider or facility. Out-of-network care is not covered. For most services, you pay a copay (a specific dollar amount) at the time of your care.

2 Aetna PPO Plan Open Choice[®] PPO

Visit any doctor in network or out of network

The plan gives you the freedom to use any licensed provider, but you'll pay less when you stay in the network. Network providers also file claims for you.

3 Aetna Consumer-Driven Health Plan (CDHP) with Open Choice PPO

Take charge of your health care costs

You're in control of your health care costs — a consumer-driven health plan puts you, the consumer, in the driver's seat. You have the protection of a medical plan, with in- and out-of-network coverage. And you get a tax-free Health Savings Account (HSA) to help you pay for qualified expenses.

All three plans offer access to a national network of medical providers — without requiring a referral from your primary care physician (PCP). But it's a good idea to select a PCP because they know you and your health history.

How the CDHP works

The CDHP includes an HSA, which is separate from a Flexible Spending Account (FSA). HSA funds are yours to keep and spend on eligible health care expenses when and how you want.

Features of an HSA

- You choose an amount to contribute through payroll deductions.
- You have a triple tax advantage:
 - Tax-free payroll contributions
 - Tax-free interest and investment earnings
 - Tax-free withdrawals to pay eligible expenses
- Funds roll over from year to year, and the account is yours to keep even if you leave the company.
- PayFlex[®] administers your account. Log in at [PayFlex.com](https://www.payflex.com) or use the PayFlex Mobile[®] app to manage your HSA.

How to get the most out of your CDHP

Build your HSA

Maximize your contributions. The maximum allowed contributions for 2023 are:

- \$3,850 per individual
- \$7,750 per family

If you're age 55 or older, you can make an additional \$1,000 "catch-up" contribution.

Your HSA earns interest. And once your balance reaches \$1,000, you can start investing through PayFlex.

Consider saving and growing your HSA for future health care expenses, even in retirement.

Shop smart for health care

Getting care in the Aetna[®] network will always cost less than getting care out of network. But you could save even more by comparing costs at different in-network facilities before you go. Log in at [Aetna.com](https://www.aetna.com) or use your Aetna HealthSM app.

[†]Walk-in clinics are network, free-standing health care facilities. They're an alternative to a physician's office visit for treatment of unscheduled, non-emergency illnesses and injuries and the administration of certain vaccines. They're not an alternative for emergency room services or the ongoing care provided by a physician. Neither an emergency room, nor the outpatient department of a hospital, will be considered a walk-in clinic.
